AutomationEdge

Annual RPA & AI User Summit

The Annual User Conference on Robotic Process Automation and AI

Organized by

Harnessing Intelligent Automation to Drive Operational Excellence

Intelligent Automation is challenging the established business models and present significant potential to optimise operations, enhance regulatory compliance and unlock organisation capacity to focus on digital transformation and change. Smart technologies like virtual assistants and cognitive interaction engines are redefining customer journeys. These together with machine learning and real time analytics have the potential to deliver unmatched customer experience and help firms gain an unbeatable competitive advantage.

Join us at Ignite 2017 - an AutomationEdge Annual RPA and AI User Summit, the year's most awaited gathering for digital innovators.

Who Should Attend?

Head/GM/VP/Director/Senior Managers of:
