Robotic Process Automation Solution with Cognitive Technologies

AutomationEdge Intelligent Automation

AutomationEdge is an Intelligent Robotic Process Automation product which comes bundled with key essential technologies for automation of front office, middle office, back office and IT operations. AutomationEdge provides Chatbots, intelligent automation bots, AI and machine learning capabilities that help clients reduce costs, improve response time, grow business and achieve compliance. AutomationEdge provides ready Bots and development environment to build new Bots.

IT Process Automation

AutomationEdge IT Process Automation automates repetitive and routine IT tasks to reduce downtime and improve incident response and resolution. It offers advanced capabilities like RPA, chatbot, machine learning and rapid API integrations.

AutomationEdge Bots for IT Offers:

- Library of 250+ ready actions for IT systems to automate common IT processes (e.g. employee on-boarding, end user support, datacenter operations) and tasks
- Virtual assistant for IT, HR, ERP, CRM and Core business applications to serve existing customers and prospects

Business Process Automation

Every organization has various business functions and each function has a set of processes, some of these processes have repetitive and rule-based tasks which are time-consuming and can be error-prone, if performed by humans. AutomationEdge - Robotic Process Automation automates such repetitive data processes, like processing transactions, collating data, triggering responses, and integrating various disparate data systems. Further to that, **AutomationEdge RPA on Cloud** solution makes it easy plug & play platform increasing productivity and reducing the maintenance and support cost.
