AI Driven Integrated Automation Platform for the Digital Enterprise, Beyond RPA

Faster and Extensible Robotic Process Automation Solution with Cognitive Technologies
AutomationEdge Integrated Automation Platform

AutomationEdge Integrated Automation Platform is an integrated approach to enable digital transformation across business functions. It combines elements of automation, Artificial Intelligence ETL, Machine Learning and smart analytics to enable end-to-end workflows that go beyond RPA. AutomationEdge helps organizations automate their mundane, repetitive, rule-based tasks across verticals, whether in the front office, middle office, or back office. It also offers a library of reusable pre-built robots/automation, named AutomationEdge Bot Store, to quicken the development cycle. The store includes pre-built automation for IT, HR, Finance, Accounting, Marketing, spreadsheet processing, ERP, CRM, AML, etc.

AI Driven Unified Automation Platform

IT Process Automation

AutomationEdge IT Process Automation automates repetitive and routine IT tasks to reduce downtime and improve incident response and resolution. It offers advanced capabilities like RPA, chatbot, machine learning, and rapid API integrations.

AutomationEdge Bots for IT Offers:
- Library of 250+ ready actions for IT systems to automate common IT processes (e.g., employee on-boarding, end user support, datacenter operations) and tasks
- Virtual assistant for IT, HR, ERP, CRM, and Core business applications to serve existing customers and prospects

Business Process Automation

Every organization has various business functions and each function has a set of processes, some of these processes have repetitive and rule-based tasks which are time consuming and can be error prone, if performed by humans. AutomationEdge - Robotic Process Automation automates such repetitive data processes, like processing transactions, collating data, triggering responses, and integrating various disparate data systems. Further to that, AutomationEdge RPA on Cloud solution makes it an easy plug & play platform increasing productivity and reducing the maintenance and support cost.

- 25% Tickets Resolved Automatically
- 50% ServiceDesk Cost Reduction
- $1.5 bn Payouts Processed Per Year
- 35x Faster Spreadsheet Processing
